Enthusiastic and detail-oriented Junior Frontend Engineer with experience in building dynamic, high-performance web applications using Angular. Commitment to continuous learning and passionate about building responsive, user-friendly, and scalable web applications. Eager to contribute to a dynamic team, learn new technologies, and deliver high-quality solutions.

Skills

- ⚙️ **Frontend:** Angular, TypeScript, JavaScript, HTML5, CSS3, SCSS
- ⚙️ **State Management:** NgRx, RxJs
- ⚙️ **Backend Interaction:** RESTful APIs, Swagger
- ⚙️ **Testing:** Jest
- ⚙️ **Tools & Version Control:** Git, GitHub, GitLab, TFS, Webpack, npm, Angular CLI
- ⚙️ **UI/UX Principles:** Responsive Design, Cross-Browser Compatibility, Accessibility
- ⚙️ **Other Skills:** Agile/Scrum, Figma (basic), Node.js (basic)

Experience

Junior Frontend Engineer | Grid Dynamics *June 2024 - Now*

- Working on a FinTech project using Angular 18, TypeScript and Agile Scrum methodologies, collaborating with an international team
- Implemented state management with NgRx to optimize application performance
- Integrated third-party APIs, optimizing data retrieval and enhancing real-time user interactions
- Improved code quality by writing unit and integration tests using Jest, maintaining 90%+ test coverage
- Refactored legacy code, improving application speed and maintainability while reducing technical debt

Frontend Engineer Intern | Grid Dynamics *December 2023 - May 2024*

- Gained hands-on experience in web development technologies including HTML, CSS, Sass, JavaScript, TypeScript, and Angular

Portfolio Website

<https://lenapuletic.github.io/>

- ⚙️ Developed a responsive website using JavaScript, HTML and CSS, to showcase my projects, skills, resume, and contact information

Certification

Google Cloud Digital Leader

- ⚙️ Cloud computing fundamentals and strategic implementation of Google Cloud solutions
