Passionate about building clean, responsive, and user-friendly web applications with an AI-first approach. Specialized in Angular, with a strong commitment to writing maintainable code and delivering seamless user experiences. Dedicated to continuous learning and expanding my skill set.

## Technical Skills

- ⚙️ **Frontend:** Angular, TypeScript, JavaScript, HTML5, CSS3, SCSS
- ⚙️ **State Management:** NgRx, RxJS
- ⚙️ **Backend Interaction:** RESTful APIs, Swagger
- ⚙️ **Testing:** Jest
- ⚙️ **Tools & Version Control:** Git, GitHub, GitLab, TFS, Webpack, npm, Angular CLI
- ⚙️ **UI/UX Principles:** Responsive Design, Cross-Browser Compatibility, Accessibility
- ⚙️ **Other Skills:** Agile/Scrum, Figma (basic), Node.js (basic)

## Experience

### Frontend Engineer | Grid Dynamics

August 2025 - Now

- Working on a FinTech application using Angular 19, TypeScript, and Agile Scrum methodologies
- Implemented a micro-frontend architecture, enabling independent module deployment, improving scalability, and accelerating feature release cycles
- Migrated the application's state management from the traditional NgRx Store to the modern NgRx SignalStore, simplifying the overall codebase and significantly reducing boilerplate code
- Established and enforced code quality standards, performing code reviews and applying clean code principles

### Junior Frontend Engineer | Grid Dynamics

June 2024 - July 2025

- Developed UI component and worked on bug fixes with focus on performance and reusability
- Integrated RESTful APIs with CRUD functionality, enabling dynamic content updates and improving data handling efficiency
- Applied NgRx concepts for state management and gained practical experience in RxJS for reactive programming
- Maintained >90% test coverage using Jest, ensuring high code reliability

### Frontend Engineer Intern | Grid Dynamics

December 2023 - May 2024

- Gained hands-on experience in web development technologies including HTML, CSS, Sass, JavaScript, TypeScript, and Angular

## Portfolio Website

<https://lenapuletic.github.io/>

- ⚙️ Developed a responsive website using JavaScript, HTML and CSS, to showcase my projects, skills, resume, and contact information
